Revised Bloom’s Taxonomy: Cognitive Process Dimensions

**Remember**
- recognize, recall
- define, describe, identify, label, list, match, name, outline, reproduce, select, state, underline

**Understand**
- interpret, exemplify, classify, summarize, infer, compare, explain
- calculate, defend, discuss, distinguish, expand, extend, give an example, paraphrase, restate, translate

**Apply**
- execute, implement
- classify, compute, construct, complete, dramatize, demonstrate, examine, illustrate, manipulate, operate, practice, prepare, show, solve, use

**Analyze**
- differentiate, organize, attribute
- appraise, break down, contrast, diagram, deconstruct, relate, test distinguish, identify, illustrate, investigate, separate, sequence

**Evaluate**
- check, critique
- argue, assess, confirm, construct, conclude, debate, defend, dispute, editorialize, evaluate, judge, explain, interpret, justify, support, rate, recommend, verify

**Create**
- generate, plan, produce
- categorize, combine, compile, compose, construct, devise, design, hypothesize, modify, imagine, improve, predict, propose, write
